Profile

Tasaa is a professionally managed company with a dedicated, proactive and technically competent team; providing outstanding services and products to our customers in a time, quality and cost effective manner.

We add value to their business by:

- improving competitiveness
- streamlining operations
- helping them to be current on technology

Since its inception in 1997, we have developed a large and satisfied customer base by giving the best through our competence, experience, high quality standards and best methodology and processes. Headquartered in Mumbai, India's financial capital, we are a small but strong team of 80+ professionals from different streams, who however, like to THINK BIG!!

Tasaa and Sage

Sales, Implementation as well as Development Partners (Silver).

One of the few Sage Partners in India offering expertise on all products - Accpac ERP, CRM, Project & Job Costing, Manufacturing modules and Payroll and HRMS.

Developed products which integrate with SAGE ACCPAC for local Indian market needs, like Service Tax, Fringe Benefit Tax, Quality Control and Students Information Management System.

Currently already servicing customers in UK and the USA for their Sage Development needs.

Proven record of handling complex implementation projects spanning various industries including Engineering, Manufacturing, Service and Infrastructure companies.

Partner with us

- To cost-effectively address business and IT challenges by taking advantage of our industry knowledge, solution expertise and delivery excellence. **And thus achieve considerable savings on your development costs!**
- To leverage our dedicated team of Sage Accpac Consultants, Sage SDK Developers, QA and Project Managers to provide customized Development on Sage Accpac SDK to all your customers worldwide.
- To provide services to your global customers for any sales assistance, implementation, customization, report development, training and support for Sage Accpac ERP and CRM solutions.

Rely on our experience

Already having strong foundation of partnerships and servicing customers across United Kingdom and the United States of America.
